

Directions and Flight Information

Seair is located on the Southside of the Vancouver International Airport operating four different types of seaplanes –all of which are scrupulously maintained and operated by experienced coastal pilots. Seair's friendly personnel and staff are always here to offer you their knowledge and expertise in the foatplane industry. With such a long history and tradition, Seair Seaplanes has worked hard to become your Seaplane Professionals. Seair operates the newest and most luxurious seaplane feet in North America.

The Cessna Caravan is the fagship aircraft of our feet. Besides the newest and fastest seaplanes in Canada, the Caravan also supplies a quiet and roomy cabin, which makes for the most comfortable passenger travel.

Driving from Vancouver

- Go Southbound on Granville Street then merge onto the Arthur Laing Bridge
- Take a slight right at Grant McConachie Way
- Take ramp to Richmond / South Terminal
- Merge onto Russ Baker Way
- Turn right at Inglis Drive
- Travel approximately 1.5 km until you see the second Seaplane Dock and building along the waters edge. Our building has a teal green roof with windsock on top

Driving from Richmond
